MONEY, BONDS AND STOCKS.

A Weak but Fairly Active Market at New York, Closing at the Lowest Prices. NEW YORK, July 16 .- Money on call was easy at 101; per cent., the last loan being made at 1, closing offered at 1.

Prime mercantile paper, 4 26} per cent.

Sterling exchange was duil but steady at \$4.86} for sixty-day bills, and \$4.88} for demand The total sales of stocks to-day were 271,213 shares, including the following: Delaware, Lackawanna & Western, 14,240; Erie, 3,500; Lake Shore, 10,516; Louisville & Nashville, 5,745; Missouri Pacific, 5,955; Northwestern, 5,260; Norfolk & Western preferred, 5,408; Northern Pacific preferred, 10; Oregon Transcontinental, 5,670; Reading, 46,060; Richmond& West Point, 9,475; St. Paul, 34,752; Texas Pacific, 4,710; Union Pacific, 8,870; Western Union, 17,630.

The stock market to-day was again fairly active, but it exhibited a general drooping tendency, especially during the forenoon, when marked declines were established in many of the active stocks, though there was a moderate rally in the afternoon, the market closed off from to 1 per cent. generally. Some large interests have for some time been working for a reaction, but the buying power has heretofore been too strong for them; to-day, however, there was a general movement to take the profits accrued upon the rise of the past week and a half, and some of the large traders, seeing the drift of events, sold the list freely, the pressure being specially severe against St. Paul, Lake Shore, New England, and Burlington & Quincy. There was very good buying in the market, however, and many of the specialties upon which there was no pressure recorded sharp advances, and the Southern specialties were particularly prominent, such as Chatta-nooga, Richmond & West Point preferred and the East Tennessee stocks. The news of the day was not of an encouraging character, and strikes on the Wabash and Manitoba and further cuts in freight rates had influence in bringing about the decline. London and some outside interests were moderate sellers to-day, but the bulk of the stocks pressed upon the market were for local account. The opening gave no indication of weakness, though it was not strong; but while many stocks were unchanged, a majority of the rest were small fractions bet-ter than Saturday's closing figures, and some slight gains were made in the early trading. The upward movement was soon over, however, and weakness set in, accompanied by con-siderable feverishness and fairly active trading. Prices continued to decline until about noon, when the losses were from 1 to 11 per cent. There was a marked decrease in the amount business done after that Southern stocks showed seat strength, the general list following with slight reactions. The selling was resumed in the last hour, however, and the improvement of the previous two hours was wiped out, with something in addition for most of the list. The market finally closed weak at or near the lowest prices. The active list is almost invariably lower, and Louisville & Nashville loss 12; New England, 1; Lackawanna and Lake Shore, 1 per cent. and others fractional amounts.

The railroad bond market was fairly active to-day, and out of a total day's business of \$1,-772,000, the Texas Pacific firsts furnished \$123,-000; St. Louis, Arkansas & Texas seconds, \$110,-000, and Burlington & Quincy, Nebraska fours, \$104,000. The market was generally firm to strong, but there was considerable selling, which gave it an unsettled appearance, and the final Changes are somewhat irregular.
Government bonds were dull and steady.

CHICAGO, July 16.—The feeling in wheat today was plainly bullish. There was nothing in the way of sensational news, and there was no plunging about in the pit, but after the opening at 2c over the close on Saturday, there was an active market within ic range, most of the session, with prices held pretty close on a 1 cent advance for the most part. The "buli" news most apparent was the strong cables and the fair export demand, with spot wheat dearer at Liverpool. There was also considerable bad crop news, but, in the words of a well-informed broker, "it is almost heresy to talk or publish, as we will surely be laughed at." Export clearances at New York were 33,000 bushels. The decrease in the visible supply was 616,000 bushels. Prices ranged for August 80c, up to 80%c, down to 79fc, up again to 80%c, and shortly before the close steady at 80tc, or 1c over Saturday's close. The final price was 80 c. Corn was fairly active, and the feeling generally easier. The market opened at about the closing prices of Saturday, was steady for a time, then became easier, selling off \$0 to, reacted tole, then became steadier, and closed totc lower than Saturday. The influences governing the market were largely local, the visible supply did not show as large a decrease as generally expected, and the estimated receipts for to-morrow are larger, which has a tendency to create a weaker feeling. Local stocks decreased 1,100,000 bushels. The shipping houses were buying moderately to-day. The visible supply decreased 836,000 bushels. The cash market was steady, there being a very fair demand for both lower and better grades, and prices were 1010 easier. Withdrawals from store here continue rather liberal, with a large proportion grading con-tract. In oats the tendency was to duliness and easier prices. This was due to the influence which unfavorable markets for other cereals exerted. In view of the decline which elsewhere occurred, the changes in speculative deliveries of oats were slight, and showed that there was still some soundness underlying the market. July delivery was in moderate request, and ruled even ic higher, but new crop deliveries ranged i die lower, though closing quotations exhibit no essential change from the closing of last week. A firmer feeling developed in provisions, and, although clos-ing prices on all speculative articles were not at extreme outside figures, an advance of 224c over Saturday's closing figures was recorded on pork, .12 con lard and .12 0.15c on short ribs. The offerings of produce were small, and the repurchase of 5,000 barrels of pork, sold Saturday, through a new set of brokers, to-day, created the impression that a big operator wanted to cover his "shorts," and the price was advanced 25c, but reacted 7½c, August selling at \$13.20 @ 13.45, and closing at \$13.37½; January at \$12.80 @ 12.85. English houses bought the lard, and August sold at 8.25 @8.32 to and closed at the top; January at 7.45@7.52je, and closed at 7.92je. Short ribs for August sold at 7.60@7.70e, and

INDIANAPOLIS MARKETS. Fair Midsummer Trade in Progress-Some-

responding period. In midsummer a quiet trade

Complaint of Slow Collections. INDIANAPOLIS, July 16. The volume of trade now in progress com pares favorably with that of last year at the cor-

is always expected, but it is no exaggeration to state that merchants who are very conservative in their views of business are confident that, unless something should turn up to blight the erop prospects, fall trade will be good, and the firmness in prices of most articles insures fair margins. Seldom at this season of the year are prices on all leading lines of goods as steady and firm as they have been through the last two months. Take dry goods; the tendency right through the dull period has been to higher prices. Cotton goods are to-day in stronger osition than two months ago. The same s true of woolen goods. At the productive points the stocks are low for this season of the year, and inquiry satisfies the manufacturer that the fall movement is to be large. Grocers had a fairly busy day. Sugars retain their strong tone. In sommenting on this market the New York Bulletin says, in its issue of July 14: "The remarkable change in tone on sugars during the week, and the sharp advance in value for both raw and refined, natprally attract attention even beyond the trade circles most directly interested. There is also a disposition manifested to attribute the buoyancy to manipulation by the combination of re-finers, from whence just such results are expected; but in this instance the surmise is somewhat astray, as the gain may be traced to influences of a more legitimate character. Scarely a doubt prevails among those who are familiar with the situation that the improvement in the market would have developed weeks ago had it not been for the action of the 'Trust' in successfully neutralizing the healthy conditions constantly forcing themselves to the surface, and now finally bursting the bounds and asserting themselves in spite of the combine. According to acknowledged trade authority, the receipts of raw sugar at the four ports since Jan. 1. were 647,501 tons, against 739,115 tons same time last year, with a stock now in hands of importers of 140,289 tons, in comparison with 182,-778 tons at corresponding date in 1887." The produce markets are fairly active. Eggs and butter firm at quotations. Choice butter is in good demand. Poultry, with increasing receipts, goes off le. Berries, in fact fruits of all kinds, are steady at about last week's range of prices. Potatoes, onions and cabbage coming in freely; prices weakening. The provision markets have taken on a firmer tone, but no advance in prices has been established.

There was a fair attendance on 'Change today, and a little more interest shown in cereals than on Saturday. Receipts are still light, but t is thought will increase handsomely before
